Operating Environment

Note: Call rate was used as an indicator for the money market rate

The Nigerian Economy

- GDP grew by 7.7%, largely driven by 88.3% contributions from the non-oil sector
- Inflation rate improved to 8.6% in Q1'13 and remained within single digit throughout the year
- Bonny light increased 2% yoy. Oil price stayed above \$110 for most of the year but declined to \$105 in June due to market shifts in the Euro-zone.
- NIBOR rates declined by 183bps yoy to 11.13% across maturities in Dec '13 due to improve market liquidity from AMCON bond redemption at the end of the year

The Banking Industry

- Increase in CRR for banks on public sector deposits to 50% from 12%. Further increase to 75% in February 2014
- MPC raised CRR on private sector deposit by 300 bps to 15% in April 2014
- COT reduced from N5 to N3/mill while interest on savings increased to 30% on MPR
- Increase in AMCON levy from 0.3% in 2012 to 0.5% of total assets in June 2013
- Regulation is expected to result in pressure earnings and cost

Revenue

Gross Earnings YoY (N'bn)

Gross Earnings Distribution by Geography

Gross Earnings Distribution by Business Segment

Comments

- Gross earnings of N208bn in 2013 (2012: N207bn)
- Interest income accounted for 70% (2012: 80%) of gross earnings while non interest income stood at 30% (2012: 20%)
- Key drivers:
 - Interest income declined in the year due to the sale of significant AMCON bonds in Q3 2012 leading to the contraction of the asset book and slower than expected loan growth in first half of the year
 - Strong growth of 48% in non-interest income YoY which compensated significantly for the drop in interest income

Net Interest Income

Comments

- Net interest Income at N78bn (2012: N100bn)
- Key drivers:
 - Timing of loan growth – slow growth in H1'13, 8% of total loan growth was recorded in Q4'13 and the benefit will be fully realised in 2014
 - Impact of additional liquidity sterilized arising from increase in cash reserve on public sector deposits
 - Lower than expected build up in earning assets following the contraction in 2012
- Yield on Assets (YOA) contracted by 180bps YoY to 10.8% in FY'13 resulting from
 - Increased exposure to lower yielding foreign currency exposure as a result of limited naira lending capacity
- Cost of Fund (COF) improved by 10bps YoY to 4.5% in FY'13 inline with the Bank's strategy to replace expensive funds with lower cost deposits

Non Interest Income

Comments

- Non interest income increased by 48% YoY to N61B in 2013
- Contribution of non interest income to gross earnings increased to 29% in 2013 from 20% in 2012
- Key drivers:
 - Significant increase in income from credit related fees and commission on the back of strong loan growth, strong transaction banking income, disposal of idle assets (N2.1bn), dividend from AFS securities (N3.2bn) , trading income (N1.9bn) and other income including valuation gain

*Included in Other Incomes are: Mark-to-market gain on trading investments, Dividends on available-for-sale equity securities, Gain on disposal of equity investment, Rental Income & other income

Operating Expenses

Comments

- Cost to Income increased from 64.9% in FY'12 to 69.9% in FY'13 on the account of lower than expected income growth and higher Operating expenses in the year on account of significant one off cost
- Operating expenses grew by 19% YoY to N101billion in Dec'13 (2012: N85bn) but declined by 26% to N20bn QoQ
- Key drivers:
 - AMCON charge paid by the bank increased from N2 billion to N11 billion in 2013 due to 0.2% increase AMCON charge and the its impact on the enlarged balance sheet following the acquisition
 - Non-recurring expenses such as depreciation adjustment N768mn, professional fees and branding cost (N1.12bn) and significant repairs and maintenance of existing infrastructure

1. Other operating expense includes: Professional fees, Insurance, General administrative expenses, Other premises and equipment costs etc
 2. Impairment (charge)/write back was included in the computation of CIR

Impairment Analysis

Comments

- Impairment write back of N6.2bn due to significant positive rating migrations of obligor
- Obligor Risk Rating (ORR 1-3) customers increased from 76% in the 2012 to 90% of the Banks Obligor
- Marked improvement in loan quality was driven by aggressive loan recovery and remedial action
- The benefit of improved risk management has started to come through as significant positive rating migrations on the loan book resulted in write backs on collective impairment
- Continue to develop our Risk Management Strategy and improve on the quality of our loan portfolio

*ORR – Obligor Risk Rating

Diversified Loan Book

Loan & Advances (N'bn)

Loan analysis by Currency (N'bn)

Loan distribution by sector

Included in others are: General Capital Market Transportation and storage, Agriculture etc

Comments

- The Bank continued to improve its overall loan portfolio, as the loan book grew by 33% to N811bn in FY'13
- Loan growth significantly driven by increase in foreign currency book to high quality obligor with dollar receivables mitigating FX risk
- LDR increase to 61% in FY'13 largely driven by loan growth in target sectors (Oil and Gas, Manufacturing and Telecoms)

Asset Quality

Comments

- Significant improvement in NPL ratio from 5.0% in 2012 to 2.7% in 2013 reflecting the bank's improved risk management and positive obligor migration
- Key drivers for the reduction in the NPL ratio were:
 - Strong loan growth
 - Successful loan recovery efforts
 - Write-offs of fully provisioned loans
- Adequate provisions made on classified assets with a coverage ratio of 113%
- Continue to mitigate our exposure to unforeseen shocks by prioritising asset quality through our diligent and systematic approach to risk management

- Included in others are: Power & Energy, Finance and Insurance, Capital Market, Agriculture and Government e.t.c
- Reserve for loan loss includes regulatory risk reserve

Deposit Mix

Comments

- Customer deposits increased by 11% YoY to N1.33trn in FY '13 with low cost deposits contributing 62% of the total customer deposits
- Funding cost reduced by 10bps to 4.5% in 2013 due to the improved mix driven by the replacement of expensive funds with lower cost deposits
- Key drivers:
 - Growth in deposits primarily due to the enhanced segmentation and engagement strategy
 - Extension of the value chain to the SME segments
 - Low cost deposits from our enhanced personal banking business

Capital Base

Risk Weighted Assets (N'bn)

Liquid Assets

Comments

- Increased cash reserve on public sector deposits led to the reduction in liquidity ratio to 41%; N70bn was sterilised with the CBN in 2013
- Risk weighted assets (RWA) growth of 15.9% y-o-y reflect deliberate approach of optimizing balance sheet
- CAR of 20% largely impacted by loan growth, WAPIC spin-off and interim dividend paid in the period
- Enhance capital adequacy through increased profit retention to support growth
